

HKTS 30WQ

5.1-channel home theatre speaker system

harman/kardon®
by HARMAN

Specifications

■ The Harman Kardon HKTS 30WQ

is the speaker package for people who hate it when other people talk during movies. The HKTS 30WQ is a powerful 5.1-channel solution with dual midrange drivers in both the satellites and the centre channel for heightened realism, and a 200-watt powered subwoofer for bass that isn't one bit intimidated by low frequencies – or by people who talk during your screenings.

■ Highlights

Home entertainment solutions
Exceptional sonic performance
Elegant design
5.1-channel sound
200W powered 200mm subwoofer
Two-way loudspeakers
Video shielded
Wall brackets
Accessories and cables in white

■ Key Specifications

- Impedance – satellites and centre: 8 ohms; SPL @ 1 watt/metre: 86dB
- System frequency response: 45Hz – 20kHz; recommended amplifier power: 10W – 120W
- Dimensions (H x W x D) and weight – satellites (base included): 299mm x 110mm x 88mm, 1,5kg; centre: 110mm x 272mm x 88mm, 1,45kg; subwoofer: 353mm x 267mm x 267mm, 9,0kg

Depth measurement includes knobs, buttons and terminal connections, unless stated otherwise; height measurement includes feet and chassis, unless stated otherwise.

HKTS 30WQ

5.1-channel home theatre speaker system

harman/kardon[®]

■ Features

Power

- Four identical two-way satellites with dual 75mm midrange and a 19mm soft-dome tweeter, video-shielded
- Voice-matched, dual-driver centre speaker, with two 75mm midranges and a 19mm soft-dome tweeter, video-shielded
- 200-watt, sealed powered subwoofer with a 200mm driver

Connectivity

- Equipped with a special LFE (low-frequency effects) input that simplifies connection to receivers and preamp/processors with dedicated subwoofer outputs that carry low-frequency signals
- Line-level inputs

Ease of Use

- All of the cables included to connect the speakers to your receiver or preamp/processor and amplifier
- Music-sense trigger to sense the presence of an audio signal and automatically switch the subwoofer from Standby mode to On
- Level control to increase or decrease the volume level of the subwoofer
- Bass-boost switch to enhance the subwoofer's low-frequency performance
- Optional HTFS 3WQ floor stand available
- Phase switch for fine-tuning bass response to suit your listening environment and taste
- Removable bases and wall-mount brackets for the satellite speakers and a wall-mount bracket for the centre speaker
